DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian K. Shelton (Reg.No.50,245) on 6/18/2007.

The application has been amended as follows:

The Abstract has been amended to:

An information storage apparatus includes a storage media including a plurality of information tracks. Each storage medium has a head assembly having a substantially planar surface and a plurality of read/write heads positioned in registry with the information tracks. The read/write heads are arranged substantially in the plane of the planar surface. The information storage medium and the head assembly are arranged in mutually sliding abutment such that the heads are substantially in sliding contact with the outer surface of the information storage medium. In another aspect an information storage and retrieval apparatus includes an information storage medium including an information storage area, and an array of information read/write heads. The information storage medium and array of heads are arranged to be oscillated with respect to each other in use such that each region of the information storage area is aligned with at least one of the heads during oscillation.

Allowable Subject Matter

Page 3

1. Claims 55-67,69-84 (renumbered 1-29) are allowed.

2. The following is an examiner's statement of reasons for allowance:

Independent Claim 55, is allowable over the prior art of record since the cited references taken alone or in combination do not teach or suggest: the storage medium and the head assembly comprise a substrate of glass having a coefficient of expansion less than 1 nm per 100 mm per Kelvin temperature rise and having a sufficiently low thermal expansion that in use thermal misregistration between the storage medium and the head assembly does not take place.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Parks et al. (US 5,739,975); Ketchersid, III (US 5,606,474); Wang et al. (US 2001/0055702 A1); Nozieres et al. (EP 1,381,031 A1); Guzik et al. (US 6,229,304); Hamaguchi et al. (US 6,760,172); Cho (US 6,081,402); Takahashi et al. (US 6,078,454); Cain et al. (US 6,493,191); Kameyama (US 6,430,006); Hamilton (US 5,041,932); Smith (US 5,402,293); Amemiya et al. (US 6,141,182).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dismery E. Mercedes whose telephone number is 571-272-7558. The examiner can normally be reached on Monday - Friday, from 9:00am - 4:00pm.
